

PAEDIATRICS

At this exclusive online educational event participants will learn to leverage nutritional strategies to help improve patient outcomes

This program is intended for health care professionals.

Thursday, 10 June 2021

16:00 - 18:30 CET / 17:00 - 19:30 EET

During this interactive webinar we will:

- Importance of Nutrition
- Compounding Considerations in
- Parenteral Nutrition
- Monitoring Parenteral Nutrition
- Lipids: Demystifying the Science

FEATURED SPEAKERS:

Henrik Arnell
MD, PhD

Astrid Lindgren Children's Hospital Swedish Hospital
Karolinska University Hospital
Stockholm, Sweden

Steve Tomlin
Bpharm, FRPharmS Chief Pharmacist

Great Ormond Street Hospital
NHS Foundation Trust
London, England

iCAN Pediatrics

Thursday, 10 June 2021, 16:00–18:30 CET (SE, DK, NO) / 17:00–19:30 EET (FI)

Program Objectives

- Understand the importance of nutrition in pediatric patients (ie: Macronutrients, Micronutrients, Electrolytes and Minerals); Identify pediatric malnutrition and its consequences on pediatric patients and overall system burden
- Describe the complexity, safety concerns and potential interactions associated with compounding, as well as with mixing pharmaceuticals with parenteral nutrition; compare the safety advantages of an all-in-one form of parenteral nutrition with the potential of efficacy advantages of individualized parenteral nutrition.
- Understand the purpose of monitoring patients and the monitoring and evaluation required for pediatric patients receiving parenteral nutrition
- Understand the importance and clinical differences between lipid emulsions through a review of the clinical evidence in parenteral nutrition in paediatric populations

2021 iCAN EMEA Regional Pediatric – Agenda

Time	Activity	Speaker
16:00 –16:05	Welcome, Introductions, and Program Objectives	Thibault Senterre, MD, PhD Baxter Medical
16:05 –16:40	Presentation 1* with Q&A: <i>Importance of Nutrition</i>	Henrik Arnell, MD, PhD
16:40 –17:15	Presentation 2* with Q&A: <i>Compounding Considerations in Parenteral Nutrition</i>	Stephen Tomlin, BPharm, FFRPS, FRPharmS
17:15 –17:50	Presentation 3* with Q&A: <i>Importance of Monitoring PN</i>	Henrik Arnell, MD, PhD
17:50 –18:25	Presentation 4* with Q&A: <i>Lipids: Demystifying the Science</i>	Henrik Arnell, MD, PhD
18:25 –18:30	Concluding Remarks	Thibault Senterre, MD, PhD Baxter Medical

*The presentations delivered by the Speakers will contain a case study and audience response polling (or other interactive vehicle) that will be discussed throughout the day to increase engagement and simulate clinical practice.
